

Instruction to attend ICSPCS'2020 webinars.

1. Please click on the link to the session you wish to attend.
A screen like the one below will appear.

2. After entering your name and email address (please use the email address you used to register for the conference) you will be admitted to the webinar. Before the full admission you might be asked for a passcode, which will be emailed to the registered delegates.
3. If you are presenting your paper in the session you will be allowed to share the screen and will be unmuted. To present your paper, you can either share the screen and do a live presentation or play the recorded video. At the end of your presentation please answer any questions asked from the audience or provide contact details for people to send their questions to. As a panelist, you may also use an opportunity to practice your presentation utilizing the 'Practice Session' mode of the webinar. To do that, please use the link provided in the panelist invitation to get into the webinar. You can do that any time up to about 3 hours before the conference session starts. Please remember that only one practice session can run at any given time. Finally, to adhere to the conference program, please get into the webinar, in which you are going to present, at least 5 minutes before its starts.
4. If you are an attending but not presenting in this session, your role in the webinar is referred to as an attendee. The full attendee instruction is available at:
